|----------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------|
| <div><div></div><div><p><i>Bacterial Blight</i></p></div></div> | <p>Yellow to brown lesions appear on leaves, stems and petioles. Lesions enlarge and form slightly sunken, dark round to angular blotches and may have yellow margins. Roots and stem vascular tissue may become black. Plants may wilt and die.</p> | <p>Sanitation. Improve air circulation. Avoid overhead irrigation.</p> |
